2024 NEW PRODUCTS

V-MATCH

A M M U N I T I O N

VARMINTS SHUDDER, RECORDS SHATTER!

Innovation, precision and excitement! Elevate your varmint shooting experience, shatter records, and make your mark like never before with Hornady® V-Match™ ammunition.

NEW ELD-VT™ BULLET

Designed using state-of-the-art technology, this bullet boasts exceptional aerodynamics. It guarantees high velocity retention, minimal wind deflection, and reduced weight—resulting in ultra-flat trajectories and rapid expansion. Whether you're aiming for victory on the competition range or seeking to outwit varmints, this bullet's design will provide the ultimate in precision and performance.

Introducing 5.7x28mm

Using carefully selected components that ensure reliable cycling and optimized propellants that burn quickly to reduce recoil and limit muzzle flash, the new 5.7x28mm features a 40 gr. FTX® bullet in Critical Defense® and a 40 gr. V-MAX® in Hornady BLACK®.

ELD-VT™

EXTREMELY LOW DRAG VARMINT | TARGET

The Hornady ELD-VT™ bullet is here to redefine your shooting and varmint hunting pursuits, offering unmatched accuracy, rapid fragmentation, and the confidence to take on any challenge – from competitions to long-range varmint hunts.

PRECISION PERFECTED

Born from a culmination of years of ballistic research, the ELD-VT™ pairs the aerodynamics of low drag match bullets with the light weight, high velocity of a varmint bullet, giving the ELD-VT™ a level of uncompromising dual-use performance. Say goodbye to compromise, as this bullet's match-winning accuracy and violent expansion will set new standards.

RAPID FRAGMENTATION

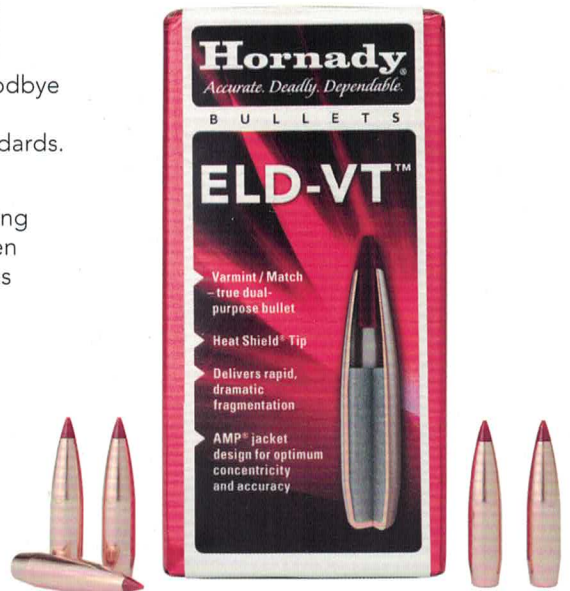

The Hornady ELD-VT™ bullet isn't just about hitting the bullseye – it's about making a statement when it gets there. Upon impact, the polymer tip drives rearward into the bullet core, causing rapid and dramatic fragmentation, even at low velocity.

ADVANCED MANUFACTURING PROCESS (AMP®) BULLET JACKETS

A testament to the unwavering commitment to excellence, AMP® bullet jackets provide unrivaled consistency in concentricity and thickness, ensuring every ELD-VT™ bullet performs at its peak potential.

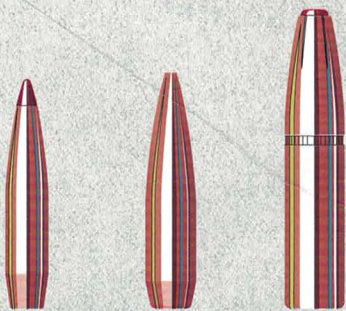

HEAT SHIELD® TECHNOLOGY

ELD-VT™ bullets incorporate the Heat Shield® tip, which resists the effects of aerodynamic heating. They retain their shape to maintain the lowest drag over their entire trajectory.

Elevate your security game with Hornady Security® Mobilis™ Safes!

Discover the ultimate solution for safeguarding your valuable firearms, ammo and gear with Hornady Security® Mobilis™ Safes. These safes offer an innovative modular design that ensures you get the security you need without the complexities of traditional welded safes. Gone are the days of struggling with moving companies or installers – the Mobilis™ Safes can be transported and assembled piece by piece in any room of your choice. The included tool kit provides everything required for assembly, giving you the power to set up your safe in a matter of minutes.

FEATURES:

- Thick 9 gauge 2-ply steel exterior walls with pry-resistant 3/16" solid steel door with non-breach seal.
- Nine to fourteen 1-inch steel live locking bolts (depending on model).
- Square-Lok™ interior organizing system maximizes storage space according to your preferences.
- Metal Square-Lok™ shelves and rifle/pistol gun racks can be configured to suit your needs.
- Additional Square-Lok™ accessories can be purchased separately.
- Built-in 120V outlet and USB power strip.
- Protective shelf and floor mats.
- 2300°F one-hour Fire Shield protection and heat-activated door seals.
- Durable powder-coated finish in matte grey.
- Stylish black nickel handles and keypad.
- UL Listed digital lock with EMP mechanical key backup.
- Pre-drilled for floor mounting.
- Lifetime warranty.
- Delivered right to your door.

THREE SIZES AVAILABLE:

No. 95072 Double Door
46"W x 71"H x 31"D

No. 95071 Double Door
34"W x 59"H x 25"D

No. 95070 Single Door
22"W x 59"H x 18"D

SQUARE-LOK™ ORGANIZING SYSTEM

Find a full line of new accessories, led by the revolutionary Square-Lok™ organizing system, including racks, shelves, pegs, hooks and other space-maximizing products.

22 ARC

ADVANCED RIFLE CARTRIDGE

SMALL CARTRIDGE, BIG PERFORMANCE

The 22 ARC brings you the exceptional power and performance that rivals the 22-250, all elegantly packed into this compact and versatile cartridge.

PERFECT FIT, FLAWLESS FUNCTIONALITY

Designed with precision and compatibility in mind, the 22 ARC is tailored to perfectly fit the AR-15 platform but is equally at home in a bolt action. With a maximum overall length of 2.260," this cartridge delivers seamless feeding, flawless functioning, and optimal performance.

UNPARALLELED ACCURACY

The 22 ARC is engineered to take full advantage of the heaviest 22 caliber bullets. This means tighter groups, increased accuracy, and an exceptional shooting experience.

BORN FROM EXCELLENCE

The 22 ARC is the result of careful and meticulous design, following the same proven methodology as the highly acclaimed 6mm ARC. The cartridge and chamber were designed concurrently to ensure consistent and repeatable performance.

APPLICATIONS

Varmint Hunting

Match Shooting

Night Hunting
