SHOTSHELL

PREMIER TSS

Send more big ol' toms to the ground with our Premier TSS Turkey Loads. The ultra-dense Tungsten Super Shot payloads inside of new Premier TSS deliver increased lethal range, denser patterns, and more knockdown power. A density of 18 g/cc makes a smaller shot size viable over what you'd choose in lead, with an energy and velocity increase to boot. Every load is tuned for the tightest, most consistent patterns possible.

NEW PREMIER TSS
