Get the ballistic leap of an all-new cartridge from a rifle that's already in your safe. Federal's new 6.5 Creedmoor +Peak is a high-performance version of the proven 6.5 Creedmoor cartridge that uses patented Peak Alloy™ case technology to boost velocities 300 fps over standard 6.5 Creedmoor and offer 100 fps over 6.5 PRC. Compatible with 6.5 Creedmoor rifles*, with more energy, higher velocities, less drop, and longer effective range. Make the 6.5 Creedmoor cartridge what it was always meant to be and rethink the very nature of ammunition.

FEATURES & BENEFITS

- Compatible with 6.5 Creedmoor rifles:
visit www.federalpremium.com/65-creedmoor-plus-peak.html for a list of supporting rifle manufacturers
- Peak Alloy case technology allows higher pressures for faster velocities and better overall ballistic performance
- 300 fps faster than conventional brass case 6.5 Creedmoor ammunition
- 100 fps faster than 6.5 PRC through existing 6.5 Creedmoor rifles
- Same velocity as a 24-inch barrel 6.5 PRC when fired through a 20-inch barrel
- Maximizes ballistic performance through shorter barrels
- High BC, heavier-for-caliber bullets minimize drop and drift for longer effective range
- More power provides ample energy and terminal performance for bigger game like elk
- Excellent for long-range target shooting and competition

*Check with rifle manufacturer for guidance on compatibility.
